

2. List of Facilitators, Consultants & Organizations*

The following list contains the names and contact information of individuals and organizations that might be useful for community development, health and social planning and capacity-building activities in your community. Many of these organizations, but not all of them, provide services for a fee.

The information is intended to be useful to all health and social department staff. It could also be useful to volunteers, other members of your community and staff from other departments. The information can be photocopied or sent in an email.

Information for this list was found through Internet searches and “word of mouth.”

In general, organizations were selected for this list because their employees have experience working with First Nations persons and/or they have experience working in Yukon.

Many other Yukon government departments and community-based organizations, *not recorded on this list*, also provide workshops about particular health and social issues and other services free of charge.

Please refer to the listings in the Yukon Substance Abuse Resource Directory, the Yukon Family Violence Resource Directory and/or the Yukon Council on Disabilities Guidebook on-line for comprehensive lists of all the organizations that can be contacted to provide these free services. The Council of Yukon First Nations health and social staff can also assist you in finding information about the services available.

*This project is funded by Health Canada through the Aboriginal Health Transition Fund. The opinions expressed in these documents are those of the authors/researchers and do not necessarily reflect the official views of Health Canada and the Council of Yukon First Nations. Inclusion on this list is not intended to be an endorsement of the services provided by these entities. The information in this document can be shared for non-commercial purposes only.

Please contact the Council of Yukon First Nations Health and Social Development Department at 867.393.9240 if you have any suggestions for this list or have contact information updates.

Also see the guide entitled “Training Programs in the Yukon” (Section 5 of this toolkit) for additional information about training programs in the Yukon.
